Congress-Schladming - new Media Centre

In the context of the FIS Alpine Ski World Championship 2013 the new Media Centre is currently build in Schladming. The energetic concept which is defined by several ecological benefits represents the Austrian know-how towards environmental and present climate issues. Wood and local products strongly influence the interior design and create a special atmosphere which is affected by the surprising view on the attractive landscape. The Congress-Schladming will have 7 convention rooms with various capacities (from 30 up to 1.400 persons). The impressive panorama as well as the inviting construction with its open architecture, equipped with the best available technology guarantees a great experience in the Congress-Schladming.

For all information about the facilities, infrastructure and services visit the website: www.congress-schladming.com

Meeting themes

Theme I: Processes in sedimentation
Theme II: Basin analysis
Theme III: Marine depositional environments
Theme IV: Continental depositional environments
Theme V: Diagenesis, fluid flow
Theme VI: Applied sedimentology
Theme VII: Hydrocarbon systems
Theme VIII: Hazards, events, climate signatures
Theme IX: Modelling and application
Theme X: Sediments in mountain chains
Theme XI: Stratigraphy and facies
Theme XII: Geophysics/Seismics/Petrophysics
Theme XIII: Sedimentary ore deposits

Open Symposium

Field Trips

A1 End-Triassic crisis events recorded in platform and basins of the Austrian Alps. The Triassic/Jurassic and Norian/Rhaetian GSSPs (Austria)
A2 Marine to continental depositional systems of Outer Dinarides foreland and intra-montane basins (Eocene-Miocene, Croatia and Bosnia-Herzegovina)
A3 From Late Triassic passive to Early Cretaceous active continental margin of dominantly carbonate sediments in the Transdanubian Range, Western Tethys (Hungary)
A4 The Rannach Facies of the Graz Palaeozoic (Eastern Alps, Austria)
A5 Siderite and magnesite mineralizations in Palaeozoic strata of the Eastern Alps (Austria)
B1 Middle Triassic platform/basin transition along the Alpine passive continental margin facing the Tethys Ocean (Gamsslein; Styria, Austria)
B2 Jurassic active continental margin deep-water basin and carbonate platform formation in the north-western Tethyan realm (Austria, Germany)
B3 Mesozoic deep-water basins of the eastern Southern Alps (Slovenia)
B4 Paleokarst, neptunian dykes, collapse breccias, mud-mounds and sedimentary unconformities (Western Carpathians, Slovakia)
B5 Neogene pull-apart basins in the Eastern Alps (Austria)
B6 Permian/Triassic boundary and Lower Triassic in the Dolomites, Southern Alps (Italy)

Short Courses

A51 Fluid inclusions in diagenetic environments
A52 Geological modelling with Gemcom Surpac™
A53 How Petrel can be a powerful tool for sedimentology?
A54 Petrophysical modelling
B51 Magnetic stratigraphy
B52 Tracers in organic geochemistry - biomarkers and stable isotopes
B53 The multiphase flow behaviour of naturally fractured reservoirs
B54 Geological modelling for coal/stratified deposits with Gemcom Minex™

Calendar

30 September 2011: Sessions submission close.
30 April 2012: Abstract submissions close. Standard registrations close. (meeting, field trips, short courses). Late registrations commence.
July 2012: 3rd Circular: PROGRAMME.

Organizing Committee
Hans-Juergen Gawlick, Chairperson, Montanuniversitaet Leoben
Sigrid Missoni, Vice-Chairperson, Montanuniversitaet Leoben
Fritz Ebner, Montanuniversitaet Leoben
Stephan Matthaei, Montanuniversitaet Leoben
Karl Millahn, Montanuniversitaet Leoben
Johann G. Raith, Montanuniversitaet Leoben
Reinhard F. Sachsenhofer, Montanuniversitaet Leoben
Tanja Schweiger, Schladming-Rohrmoos Tourist Office
Warm and sincere people, unrivalled by its natural beauty and mineral wealth, all conveniences of an up-and-coming alpine town in marvellous settings. The unique combination of tradition and modernity of alpine and international flair offers new perspectives to both, locals and their guests alike.

Most of our countryside is still untouched by human hand. A vacation spend in this magnificent mountain world regenerates your whole being. The imposing walls of the Dachstein Massif, scenic alpine summits on the Tauern side of the region, idyllic alpine valleys abloom with life, clear streams and mountain lakes, high moors, alpine huts, chapels and the region highest waterfalls - these are some destinations of the glorious landscapes. The combination of mountain, water and excellent tourism infrastructure promises unforgettable adventure.

Mysterious, historical and culinary theme paths are sources of complete joy for all who choose to explore our beautiful countryside under their own power.

The journey itself is the ultimate goal. Clear winter air brightens all senses. Discover renewed strength. Find inner peace. Amid pristine countryside.

...this is autumn in the mountains

Crystal-clear, naturally pure ...

Most of our countryside is still untouched by human hand. A vacation spend in this magnificent mountain world regenerates your whole being. The imposing walls of the Dachstein Massif, scenic alpine summits on the Tauern side of the region, idyllic alpine valleys abloom with life, clear streams and mountain lakes, high moors, alpine huts, chapels and the region highest waterfalls - these are some destinations of the glorious landscapes. The combination of mountain, water and excellent tourism infrastructure promises unforgettable adventure.

Mysterious, historical and culinary theme paths are sources of complete joy for all who choose to explore our beautiful countryside under their own power.

Winter in Schladming and Rohrmoos means ...

Charisma, variety, Styrian hospitality and annual World Cup ski races makes the Schladming-Dachstein region to one of the top five ski areas in Austria.

But, the biggest winner of all are you, as our guest: You can slice down World Cup slopes from now on out, even long before the first class stars arrive.

Other important things you should know!

Destination

Schladming can be reached easily by train from the nearby airports: Munich, Vienna, Salzburg, Linz, Klagenfurt, Graz or Innsbruck. Regular connections to international express trains exist (www.oebb.at). Public bus service is available in all towns of the Schladming-Dachstein region. Schladming can be approached by car on the main road B 320 continuing from the highway A 10 (north-south direction: Germany - Salzburg - Villach - Italy/Slovenia) or from the A 9 (north-south direction: Germany - Passau - Linz - Graz - Slovenia).

Accommodation

29th IAS Meeting participants will be offered a wide range of accommodation options, most of them in walking distance to the venue. Schladming and the Schladming-Dachstein region offer a diverse range of stylish hotels, comfortable vacation apartments, guest houses, beds and breakfast guest beds, camping or for an exceptionally authentic experience a farm holiday. Most have been reserved for this meeting and will be offered at discount rates. Prices for suitable accommodations start at 25 EURO/night. Schladming-Rohrmoos Tourist Office helps to organize inexpensive and exclusive one-way and round-trip opportunities between the airports and Schladming. Transfer service and all reservation facilities will be arranged by our advisors of the Schladming-Rohrmoos | Schladming-Dachstein Tourist Office (Mr. Johannes Baltl: Johannes@schladming.at; Ms. Tanja Schweiger: tanja@schladming.at).

Feel free to contact them.
