

COVID-19 hygiene rules and rules of conduct

Tested, vaccinated or recovered from a COVID-19 infection (3G)

For courses and exams, a proof of being tested, or vaccinated or of having recovered from a COVID-19 infection is mandatory. It is strongly recommended for all other areas of university operations.

Mandatory use of FFP2 face masks

Wearing an FFP2 face mask is mandatory in all interior spaces of the University of Vienna. This also applies to the workplace if more than one person is present in the room, unless all persons present have been tested or vaccinated or have recovered from a COVID-19 infection.

Wash your hands

Wash your hands regularly and thoroughly with soap and water or with alcohol hand sanitiser.

Respiratory hygiene

Cover your mouth and nose with a disposable tissue or the crook of your arm when coughing or sneezing.

Open the windows regularly and sanitise work areas

Open the windows regularly and use disinfectant to clean workstations or equipment that are being used by more than one person.

Avoid using the lifts

Do not use lifts, if possible, or use them alone.

In the event of a suspected COVID-19 infection

Call the hotline 1450, go home and/or stay at home. Notify the University in case of a suspected or confirmed COVID-19 infection:

- Students can use the service desk to report a suspected or confirmed COVID-19 infection at studieren.univie.ac.at/en/studying-exams/studying-on-site.
- Employees report their COVID-19 infections via the **service desk**.

In general, adhere to the principle of staying at home when sick.
